DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-2, drawn to recycling system of an aqueous paint, classified in class 118, subclass 326.
 - II. Claims 3-6, drawn to process of reusing an aqueous paint, classified in class 427, subclass 420.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the system can be used to recycle material that is not paint such as a cleaning fluid or an adhesive.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 1734

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II and their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. A telephone call was made to Charles Watts on 11/19/2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

6. The examiner notes, there appears to be a 35 USC 112, 2nd paragraph issue in claims 1 and 2. The preamble of claims 1&2 recites a recycling system but the body of the claim is written as method steps. The examiner has assumed claims 1 and 2 are directed to a spraying apparatus including a recycling system,

7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yewebdar T Tadesse whose telephone number is (703) 305-3539. The examiner can normally be reached on Monday-Friday 8:00 AM-4:30 PM.

Art Unit: 1734

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Crispino can be reached on (703) 308-3853. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 305-7718 for regular communications and (703) 305-3599 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0661.
